

Junior Girl Scout Journey Tie-Ins Journey to the Stars Overnight George Observatory

It's Your Planet – Love it!
Juniors: Get Moving!

Book	Page	Tie In
Girls	54 – 57	Learn about sources of light pollution and observe the effects of light pollution and our ability to see stars.
Adult Guide	14 – 15	Discuss the wasting of energy and benefits of saving energy with light pollution. Observe the night sky with expert astronomers. Learn constellations, the importance of the North Star and how to find directions without a compass. Take a nature hike after dark to identify mammals, reptiles and insects along the paved Creekfield Nature Path.
		Tie-in with Innovate Project to discover how people are working on energy issues such as light pollution.
Adult Guide	22	Discover ways animals use energy or conserve energy in natural settings.
Adult Guide	45	Observe animals in their natural habitat Explore how various animals use movement (or lack of movement) for survival.
		On the hike, practice “Leaving No Trace,” which ties in with Outdoor Camper badge.

It's Your World – Change it!
 Juniors: Agent of Change

Book	Page	Tie In
		Power of One – experience various real-world careers and what traits each specialized job requires.
		Power of Team – Work with others during the simulation to solve problems and achieve success.
		Power of Community – Form opinions about the future direction of our national space program. Where should we go in space? Should we colonize other moons or planets?
		Learn how to be an Adult Guide and experience role-playing as girls become astronauts and mission controllers in the Expedition Center.
Adult Guide	25	The Expedition Center offers learning by doing, also known as experiential learning, and is a hands-on learning process that engages girls in continuous cycles of action and reflection.
		Discover ways to use teamwork as you connect and take action in realistic simulation experiences.
Adult Guide	27	Expedition Center mission offers co-operative learning as the girls work toward shared goals and by encouraging the sharing of skills, knowledge and learning.

It's Your Story – Tell it!
